TERMS OF ADMISSION.

Candidates for admission must produce testimonials of good moral character; and, if from another College; evidence of regular dismission.

The proper time for examination is on Monday preceding Commencement, and the day before the opening of the Fall session.

Students are admitted only on examination, both of the preparatory studies and of those previously pursued by the class which they desire to enter. When admitted to an advanced class, a fee of \$5 is charged for each year's advancement, except when the student comes from another College.

Candidates for the Freshman Class are examined on the following books and subjects:

ENGLISH.

Grammar; Geography; Outlines of Ancient and Modern History; Ancient Geography.

MATHEMATICS.

Arithmetic; Algebra to Quadratic Equations, (Loomis's Treatise, or Greenleaf's Higher); Geometry, (Loomis's), four books.

LATIN.

Andrews and Stoddard's Grammar; Cornelius Nepos, or Latin Reader; Cæsar, (four books); Virgil's *Æneid*, (four books), or their equivalent.

GREEK.

Hadley's, Kuhner's or Crosby's Grammar; Xenophon's *Anabasis*, (first three books); Jacob's Reader; or four books of Homer's *Iliad*.

DEPARTMENTS.

The Board of Trustees have established the following scheme of Departments of Study, and propose to carry it out on the University principle of Elective Courses, as the means at their command will enable them to do.

- I. Moral Science.
- II. Ancient Languages and Literature.
- III. Pure Mathematics.
- IV. Philosophy and English Literature, including History and Constitutional Law.
- V. Physics and Mixed Mathematics, and the application of Calculus to Natural Philosophy, Astronomy and Mechanics.
- VI. Chemistry, and its application to Agriculture and the Arts.
- VII. Physical Geography, Natural History, Mineralogy and Geology.
- VIII. Modern Languages.
- IX. Civil and Mining Engineering, and Metallurgy.

The scheme embraces much more than can be accomplished in four years ; and it was further agreed that those students who wish to obtain the Collegiate Degrees shall devote the earlier part of their course, as heretofore, mainly to the elements of Classical Learning and the Pure Mathematics ; but that, for the latter part, certain studies be made optional, and that those who go through any of the prescribed special courses, as they may elect, shall be graduated Bachelor of Arts equally with those who complete the Classical Course.

SCIENTIFIC COURSE.

According to the preceding announcement, such students as desire are allowed to substitute Practical Chemistry for the Latin and Greek of the Junior and Senior years, and graduate with the usual degree of Bachelor of Arts.

The Scientific Department at present affords opportunity for instruction and practice in rudimentary Chemical Analysis—qualitative and quantitative—and Pharmaceutical Chemistry.

Each student is provided with a desk and necessary apparatus, and is required to make, under the supervision of the Professor, such experiments and analyses as will tend to render him familiar with the general principles of science, and give him a practical acquaintance with the commoner minerals, and the general method of testing them.

The course is adapted to those who desire to devote themselves to the Medical profession, so as to enable them to obtain a practical acquaintance with Medical Chemistry.

To such as desire to qualify themselves to teach Natural Science, special instruction is given in the experimental illustration of scientific truths, as far as possible, by means of the simplest and least expensive apparatus.

The members of the Senior Class, electing this course, are required, as part of their regular work, to deliver experimental lectures before the students of this department, who have organized themselves into a society for the promotion of its interests.

A prize, called the Scientific Society's prize, is given to the members of the Senior Class who may give the fullest and most scientific account of experiments made upon some subject selected by the Scientific Society, and approved by the Professor.

As a general incentive to application, increased facilities for study, in way of apparatus and laboratory privileges, are afforded to such as make the most satisfactory progress.

Copies of Fresenius' Qualitative and Quantitative Analysis are furnished for the use of the students, upon payment of an advance fee of five dollars, which is refunded upon return of the books at the close of the session.

General books of reference, special treatises, and various scientific journals are accessible to the student in the laboratory library, as well as that of the Professor, including :

Rose's Analytical Chemistry,	Wood & Bache's U. S. Dispensatory.
Plattner & Muspratt's Blow-pipe Analysis,	Bowman's Medical Chemistry,
Gmelin's Hand-Book of Chemistry,	Silliman's Journal,
	American Chemist,
Watt's Dictionary of Chemistry,	Franklin Institute Journal,
Ure's Dictionary of Arts, &c.,	Scientific American,
Miller's Elements of Chemistry,	Poggendorf's Annalen,
Will's Analytical Outlines,	Philadelphia Photographer,
Dana's Mineralogy,	Photographisches Archiv,
Gray's Botanical Works,	American Naturalist.

BIBLICAL COURSE.

Students, preparing for the Christian Ministry, are allowed to take Hebrew and New Testament Greek in their Junior and Senior years, in place of equivalent studies, chiefly mathematical, and graduate Bachelor of Arts. The following works are used as text or reference books: Hahn's Hebrew Bible; Gesenius' Hebrew Grammar, by Roediger; Gesenius' or Fuerst's Hebrew Lexicon; Winer's Chaldee Grammar; Tischendorf's Greek Testament, 8th critical edition; Winer's Grammar of New Testament Diction; Robinson's Lexicon of the New Testament Greek.

A Bible Class, in which the original scriptures are critically examined, and the Received Text compared with the readings of the most noted and valuable of the ancient manuscripts, is

conducted by Prof. Harman, every Sabbath afternoon. All the students have the privilege of attending this instructive exercise.

The Patronizing Conferences direct the attention of young men who are candidates for the Ministry, to this course, in the following Preamble and Resolution :

WHEREAS, Dickinson College provides for a course of instruction in the elements of Moral and Biblical Science and Literature ; and

WHEREAS, This course is adjusted to the wants of those young men who are preparing for the Ministry, and who cannot take the full classical course, Therefore,

Resolved, That we advise those young men within our bounds, who feel called to preach the Gospel, to avail themselves, as far as practicable, of the advantages of this course of instruction.

EXTRA WORK.

Any Elective Studies are also open, as additional studies, to students pursuing any one of the regular courses for graduation, if in the judgment of the Faculty such additional work does not interfere with their regular studies ; and the taking of such extra work by any student is indicated in the catalogue, and will be recognized by a certificate to that effect when desired.

PARTIAL COURSE.

A partial course, covering about two years, and embracing such studies from the regular curriculum as bear directly upon their future vocation, can be pursued by students not intending to graduate.

COURSE OF STUDY.

FRESHMAN CLASS.

CLASSIC . . . *Greek*—Xenophon's *Cyropædia*, or Homer's *Odyssey*; *Greek Selections*, (Boise & Freeman's); *Greek Prose Composition*, (Jones & Boise's).

Archæology of Greek and Roman Literature; *Archæology of Art* (*Manual of Classical Literature*).

Latin and Greek Exercises and Written Translations.

- MATHEMATICS First Term.—Plane and Spherical Trigonometry; Navigation and Surveying.
Second and Third Terms.—Analytical Geometry, (Loomis' Revised Edition); Linear Perspective.
- ENGLISH Political Economy, (Wayland's); Logic, (Thompson's Laws of Thought); English Language, (Latham's); Exercises in Composition continued.
Principles of Elocution, accompanied with Private Declamation.
- NATURAL SCIENCE . Chemistry, begun.
- BIBLICAL Greek Harmony; Historical Geography.
- FRENCH Languellier and Monsanto's Practical Course; Bocher's Reader.
- GERMAN Whitney's Grammar and Reader.

JUNIOR CLASS.

- CLASSICS . . . *Greek*—Select Plays of Sophocles and Euripides; Demosthenes' Select Orations.
Latin—Cicero de Officiis or Tusculan Disputations; Tacitus (Germania and Agricola).
- MATHEMATICS Differential and Integral Calculus, with applications; Civil Engineering (Gillespies' Roads and Railroads.)
- ENGLISH Hamilton's Metaphysics; Rhetoric (Whately's); History (Weber's); Lectures on the Philosophy of History; Public Declamation.
- NATURAL SCIENCE . Chemistry, completed; Physics, begun; Lectures.
- BIBLICAL Greek Testament; Grammar of its Diction; Hebrew Grammar; Historical Parts of Hebrew Bible; Criticism; Exegesis; Lectures; Christian Evidences.

ETHICS	Haven's Moral Philosophy ; Lectures on the Progress of Ethical Philosophy.
FRENCH	Scribe ; Corneille or Moliere.
GERMAN	Schiller and Uhland.

ELECTIVE STUDIES.

BIBLICAL	Hebrew in place of the French of the first term, and the Calculus of the second term.
SCIENTIFIC	Laboratory Practice, Qualitative Analysis in place of Greek, (Will's Tables,) Himes' 2nd Edition.

SENIOR CLASS.

CLASSICS . .	<i>Greek</i> —Select Plays of Æschylus or Sophocles ; Plato or Aristotle. <i>Latin</i> —Terence ; Ars Poetica (Horace) ; Plautus or Juvenal.
MATHEMATICS	Astronomy (Loomis') with Lectures on Astronomy and the Philosophy of Mathematics.
ENGLISH	History of Philosophy (Henry's) ; Lectures on Philosophy ; Guizot's History of Civilization ; History of English Literature (Shaw's) ; Public Declamation of Original Compositions.
NATURAL SCIENCE .	Physics, completed ; Geology ; Lectures.
FRENCH	Racine.
GERMAN	Lessing and Goethe ; Written Translations from English into German ; Lectures on German Literature.
BIBLICAL	Hebrew, Psalms and Prophets ; Biblical Chaldee ; Criticism ; Exegesis ; Lectures.

ETHICS Butler's Analogy ; Butler's Ethical Discourses ; Lectures on the Function of Philosophy in Religion.

ELECTIVE STUDIES.

BIBLICAL Hebrew and Biblical Archæology, in place of Latin and Classic Greek.

SCIENTIFIC Laboratory Practice : Qualitative Analysis, continued, Bunsen's Flame Reactions, (Himes'), Quantitative Analysis, begun, Experimental Lectures by the Student, in place of Latin and Greek.

BOOKS OF REFERENCE.

The following are recommended as Books of Reference throughout the course :

Anthon's Classical Dictionary ; Zumpt's Latin Grammar ; Hadley's Greek Grammar ; Ramshorn's Latin Synonyms ; Davies and Peck's Mathematical Dictionary ; Dana's Mineralogy ; Gray's Botanical Works ; Fowler's English Grammar ; Webster's or Worcester's Unabridged Dictionary ; Long's Classical Atlas ; Story on the Constitution.

TERMS AND VACATIONS.

The College year is divided into three terms ; the first beginning on the second Thursday in September, and ending on the Wednesday preceding Christmas ; the second beginning two weeks from the termination of the first, and ending on the Thursday preceding Easter ; the third beginning on the Tuesday following Easter, and closing at Commencement, the last Thursday in June.

EXAMINATIONS.

1. Of all the classes at the close of the Fall Term, on the studies of the term.
 2. Of the Senior class, three weeks before Commencement.
 3. Of the other classes, the week before Commencement, on the studies of the Winter and Spring terms.
 4. Of candidates for admission, the Monday of Commencement week, and the day before the opening of each term.
-

METHOD OF INSTRUCTION.

At the daily recitations, where the text admits of it, the old catechetical method of instruction is avoided as much as possible, and the student required to give a connected view of the subject in his own language, and without the aid of the Professor, except on points not fully treated by the author, thus cultivating at once the powers of memory, thought and discourse.

When a subject is susceptible of it, a written analysis of the lesson may be required; and a written analysis of the whole work at the examination.

The instruction in PHILOSOPHY AND ENGLISH LITERATURE is given partly by recitations in History, Rhetoric, Logic, Political Economy, Metaphysics and Constitutional Law, and partly by lectures on the English Language and Literature, the Philosophy of History and Polity, and the History of Philosophy. Practical exercises in Writing and Speaking also receive special attention in this department.

The Course in NATURAL SCIENCE includes recitations from text books, lectures, accompanied by illustrations and experiments; practice in the laboratory, and also lectures by students of the Elective Course.

In the MATHEMATICAL department there are daily recitations. In the Senior year, lectures are given on the theories and application of the higher branches.

In the CLASSICAL department it frequently happens that either different authors, or different portions of the same author, are read by the same classes; but this fact does not affect the *amount* of Greek and Latin required of those who apply for admission to the higher classes.

RELIGIOUS INSTRUCTION.

Religious service is held in the chapel in the morning and evening of each day, except Saturday, Sunday and Wednesday, when the evening service is omitted. The students are also required to attend public worship twice on the Sabbath, at such church as their parents or guardians may designate.

COLLEGE BILLS.

	Fall Term.	Winter and Spring Terms.
Tuition Fee (where Scholarships are not used)	\$15 00	\$25 00
Expenses of special Scientific Course	10 00	15 00
Fee for special Biblical Course	2 00	3 00
For use of Library and Apparatus	1 50	2 50
For use and warming of recitation rooms	3 00	5 00
Janitor's services	2 00	3 00
Modern Languages	2 00	3 00

Students lodging in College pay for room rent from \$10 to \$12 a year. Some of the rooms are lighted with gas, the cost of which is charged upon the occupant. Where two students occupy a room, this will probably not exceed \$8 50 per year to each. These are the only bills payable to College, except a charge for incidental repairs. They are required to be paid to the Treasurer during the first month of each term.

 RESIDENCE, BOARD, &c.

Students not resident in the town are required to lodge in the College, and to furnish their own rooms. Furniture can be purchased in Carlisle at moderate prices.

No boarding department is kept by the College. Most of the students now board in clubs or voluntary associations, carefully organized and managed by themselves, constituting families of from fifteen to twenty persons each. The expense varies from \$2 50 to \$4 a week. Others board at such private boarding houses in town as are approved of by the Faculty, in which the price of board varies. Washing is from \$1 50 to \$2 per month.

 SUMMARY OF ANNUAL EXPENSES.

As the College tuition is now for the most part paid by Scholarships, the necessary expenses of a student are much reduced. Parents and guardians are invited to examine the following estimates :

Library and Apparatus Fee.....	\$4 00
Use and Warming Recitation Rooms.....	8 00
Janitor's services.....	5 00
Modern Languages.....	5 00
Room Rent.....	12 00
Board, 40 weeks, from.....	\$100 to \$200
Washing (average).....	17 50
Fuel (average).....	8 00
Lights (if gas is used).....	8 50
Incidental Repairs, about.....	3 00
For special Scientific Course, to cover the expenses of chemicals and apparatus.....	5 00
For special Biblical Course.....	5 00

OTHER EXPENSES.—In the above summary, no estimate is made for books, clothes, traveling, or other matters outside of the regular College expenses. These will vary according to the habits and circumstances of the student. There is also a small annual expense in the Literary Societies.

SCHOLARSHIPS.

Attention is especially requested to the following regulations :

1. But one student can enjoy the use of the same certificate of scholarship at one time.
2. Presentation of a scholarship to the Treasurer within thirty days after the entrance of a student is required. Otherwise tuition will be charged.
3. For the use of scholarships, except in case of sons or wards, the consent of the owner must be presented in writing.
4. Transfer of scholarships can be made only on written order of the owner, or his legal representative.
5. A scholarship for twenty-five years can be converted into four of four years each ; one of ten years into two of four years each, and a perpetual scholarship into four of four years each. In case a portion of the scholarship to be converted has been consumed, so much will be deducted from one or more of the new certificates.
6. New certificates can be issued in place of lost ones, only after satisfying the President of their existence and loss, and after receipt by the Treasurer of a copy of the newspaper of the county wherein the owner resided, or of the newspaper published nearest his residence, containing advertisement of the loss and of intention to apply for a re-issue.

FINANCIAL AFFAIRS OF THE STUDENT.

As economy is indispensable to the welfare of both the College and the student, and all experience teaches that youth should not be allowed the uncontrolled use of money, attention is called to the following extracts from the Statutes of the College. Though the faithful observance of these rules may not, in all cases, secure the economy desired, it will doubtless prove a salutary check upon temptations to extravagance and vice :

1. Every minor, whose parent or guardian does not reside in Carlisle, shall select some member of the Faculty as his Patron, who shall have special oversight of his department, and whose duty it shall be to afford such counsel as his circumstances require.

2. *All Funds* for the use of a student shall be deposited with his Patron; and no student shall be permitted to remain in the Institution, who shall obtain money from any other source, unless he immediately deliver it to his Patron.

3. Parents are requested to notify the Patron at the beginning of each session what expenses each student is allowed to incur, and the Patron shall be strictly governed by such information in his disbursements.

4. No student shall contract any bill without the permission of his Patron.

5. College Bills have the preference; all others according to the date of presentation; *provided*, that no bills shall be paid for horse or carriage hire, confectionary, fruit, eatables of any kind, or other articles unnecessary for a student.

6. The Patron is at liberty to furnish such pocket money as the parent or guardian may prescribe: *Provided*, It does not exceed what in his judgment, with the advice of the President, the interest of the student and of the Institution may require.

7. In case any student shall borrow money, or contract any bill, contrary to the rules of the College, he shall be dealt with as for a high offence, and the payment of such a bill by him or for him, shall subject him to such discipline as the circumstances may demand.

8. In the monthly report of each student, his Patron shall state the items of expenditures since the last report, together with the amount of funds received. The accounts of the Patron shall, at all times, be open to the inspection of the President and Faculty.

9. The Patron shall not be held personally responsible for any bill of any student. The expenses of correspondence in the discharge of his duties shall be charged to the accounts of the students concerned. As compensation for trouble and risk, he may charge a commission of three per cent. on all money paid out.

 LIBRARIES.

The College Library contains	7,765	volumes.
The Library of the Belles Lettres Society . . .	9,771	"
The Library of the Union Philosophical . . .	9,967	"

These are accessible to all students, and, except in vacation, are opened as follows :

The College Library, every Saturday, at 11 o'clock A. M.

The Society Libraries, every Wednesday and Saturday, at 1 o'clock P. M.

 MUSEUM.

The College Museum contains specimens in Mineralogy, Geology and Natural History, adapted to instruction, including a collection of minerals bequeathed to the College by S. Ashmead, Esq., of Philadelphia; and a suite of 140 rocks of the Mt. Blanc chain, added, out of the interest of donation of J. W. Hendrix, M. D., supplementing a plaster model of that chain previously presented by Dr. Durbin; a cabinet of Ancient Coins, and a copy of Salvator Rosa's Conspiracy of Cataline, in the gallery at Florence, by the late George Cook, Esq.

 PHILOSOPHICAL AND CHEMICAL APPARATUS.

The apparatus employed for illustration in the General Course of Study is valuable and annually increasing. The apparatus in the Chemical Laboratory for the use of the students is adapted to the wants of the elective course. A fee of one dollar, paid by each student, the special laboratory fee of those taking the elective course, and the interest of certain donations made for this purpose, are applied to its increase and use. A large Compound

Burning-Glass, larger lens 18 inches in diameter, once the property of Priestley, and the Rotascope employed by Professor Walter Johnson, are of special historical interest. Amongst more recently added pieces are a Lime Light Lantern, Gas Microscope, and Table Microscope, manufactured by Zentmayer.

By interest of donation of J. C. Rives, M. D., an Induction Coil, giving $7\frac{1}{2}$ inch spark, made by Ruhmkorff, of Paris, a full set of Geissler Tubes, with rotators, and a Bunsen's Battery of forty cells, with 11-inch carbons.

By interest of donation of J. W. Hendrix, M. D., a full set of Standard Meteorological Instruments, made by Green, and an Electric Lamp, have been obtained.

During the past year there has been added :

By interest of Rives' donation, a Bunsen's Photometer, and a Cathetometer.

By interest of Hendrix's donation, a Dipping Battery.

By fees of Students, and special fees of laboratory, Carre Ice Machines, Bourdon's apparatus for the demonstration of the *vis viva* of projectiles, Centrifugal Railway, and various pieces of Chemical and Physical apparatus, have been imported.

ASTRONOMICAL OBSERVATORY.

The College has facilities for instruction in the Department of Astronomy. The Astronomical Observatory is provided with an Achromatic Telescope, manufactured by Henry Fitz, of New York. This Telescope has an object glass of five inches, with a focal distance of seven feet, is Equatorially mounted, and furnished with Right Ascension and Declination Circles, and is adapted to scientific research, as well as instruction.

DEGREE OF MASTER OF ARTS.

All graduates of three years' standing, or more, who have in the meantime sustained a good moral character, are candidates, in course, for the degree of A. M. Application should be made to the President, accompanied by the usual fee (\$5.00) two weeks before the Commencement. If the degree is not conferred, the fee will be returned.

PRIZES.

By the liberality of Daniel Pierson, Esq., of Newark, New Jersey, the College has been furnished with funds to be appropriated as Prizes for Oratory. These prizes are in the form of a gold and a silver medal, to be given to such members of the Junior Class as excel in the combined merits of Declamation and Composition. The prizes are known as

THE PIERSON PRIZES.

Award for 1874.

GOLD MEDAL.—John Y. Dobbins,
SILVER MEDAL.—Y. Peyton Morgan.

SCIENTIFIC SOCIETY PRIZE.

To a member of the Senior Class for the best experimental treatment of some subject selected by the Society.

Award for 1874.

Charles B. Staples.

BENEFICIARY FUND.

This fund, arising from the contributions of benevolent friends, and the interest of loans to students, is used to aid young men of limited means, who are preparing for the ministry. The money is loaned to them, at three per cent. interest, on their notes payable after graduation, and thus becomes available, in time, for the aid of others. As the cases of this description, in which a small amount of help may prove of incalculable benefit, are more numerous than the fund affords the means of helping, donations to it, in money or scholarships, are earnestly solicited. They may be forwarded to Prof. C. F. Himes, Treasurer of the College, and, *ex officio*, of the Fund.

ENDOWED SCHOLARSHIPS.

The Trustees recently authorized the founding of endowed scholarships of ONE THOUSAND DOLLARS EACH, whose object should be to aid in extending the privileges of the College to young men of promise, otherwise unable to command them.

I. Such scholarships may be constituted as follows:

1. The donor of each scholarship shall have the privilege of naming it, and of selecting the student who shall enjoy the income.

2. Scholarships may be maintained by the annual payment of sixty dollars as interest, until the principal sum of One Thousand Dollars is paid. They lapse, of course, when the interest fails, unless the principal sum has been paid.

3. Churches contributing a Thousand Dollars, each, may, if they desire it, place upon that foundation the sons of their ministers, or, in lieu of that, may nominate some other candidate to receive its avails.

II. Their use shall be subject to the following regulations:

1. Whenever a scholarship becomes vacant its income, during such vacancy, shall be at the disposal of the Board of Trustees.

2. Candidates for them must, in all cases, present testimonials of good moral character.

3. Those who are placed upon these scholarships must be fully prepared for admission to College, and when admitted, must conform to its laws and regulations.

The creation of such scholarships is very much to be desired. Many young men of excellent promise would, in this way, have the advantages of collegiate education brought within their reach. It may be doubted whether the same sum invested in any other way would accomplish equal good. We earnestly commend this opportunity of extending the usefulness of the College, and of affording perpetual help to worthy young men struggling to fit themselves for active life, to the favorable consideration of those who are concerned to do good with their means.

LAW SCHOOL.

A Law Department is established in connection with the College, under the direction of the Hon. James H. Graham, LL. D., late President Judge of the Ninth Judicial district of Pennsylvania.

The term of study required for admission to the Bar is two years. No examination and no particular course of previous study is required for admission.

The sessions of the Law School correspond with the College sessions. But students may enter the Law Department at any time, and the term of study will date from their entry. Students who have pursued their studies with a member of the Bar, or law judge of Pennsylvania, for one year, will be admitted to the Bar after one year's study in the Law School.

After a student shall have studied for the term of two years, the last year being in the Law Department connected with the College, application for admission to the Bar will be made in the Court of Cumberland county. Upon passing a satisfactory examination before a committee of the Carlisle Bar, appointed for the purpose, students will be admitted to practice law, and the degree of Bachelor of Laws conferred by the College, on the certificate of recommendation of the Principal of the Law School.

A MOOT COURT

Will be held for the argument of causes previously assigned, and an opinion delivered by the Principal.

Recitations and examinations will be accompanied with occasional oral lectures and expositions on the subject of study. The fees are \$25 a term, or \$50 per annum, with an additional charge of \$25 per annum, or \$12.50 for six months for admission to the Moot Court.

GENERAL REMARKS.

The government of the Institution is mild and parental. It is designed to secure attention to study and correctness of deportment, not so much by the enforcement of rigid rules, as by cultivating in the student a taste for intellectual pursuits and virtuous habits. But while youthful indiscretion will be treated with lenity, incurable indolence, bad morals, and pecuniary extravagance will not be suffered to remain to corrupt the good manners of students.

A faithful record is kept of the standing and deportment of each student, of which a monthly report is made out and sent to the parent or guardian of those who are under age.

Since loss of time is injurious both to the habits and the scholarship of students, it is desirable that they be present and ready for work at the opening of the session; and parents and guardians are earnestly requested to discourage all absences from College for the purpose of visiting friends or otherwise, except in urgent cases.

When the studies of a term are elective, notice of the studies which a student may wish to elect, should be handed to the Faculty before the opening of that term.

NECROLOGY.

So far as we have information, four of our Alumni and one of the oldest members of the Board of Trustees have, during the present College year, ceased from the living. With their names, we note the chief events which marked their honored lives:

WILLIAM R. CREERY, born in Baltimore, Md., 1824; died in that city April 3, 1875, *Ætat.* 51.

He graduated in 1842, since which time, with only an interval of three years, during which he was Principal of Lutherville Female Academy, he has been continuously identified with the public school system of his native city, being for a number of years Professor of English Literature in Baltimore City College. In 1868 he was elected Superintendent of Public Schools, which position he held at the time of his death. He was the author of a number of text books, and for some years he edited the "Maryland School Journal." From the testimonies of his colleagues these may be cited: "He was always and everywhere a gentleman, truthful, conscientious, faithful, and energetic;" "he was on all occasions of doubt and difficulty a wise counsellor, primed with valuable and ready information, sagacious in thought, judicious in action, and practical in measures for the benefit of the public school system of Baltimore."

REV. ROBERT H. PATTISON, D. D., born near Cambridge, Dorchester Co., Md., January 22, 1824; died in Philadelphia, February 14, 1875, *Ætat.* 51.

He was converted while a student at Dickinson College, where he graduated in 1843; was received into the Philadelphia Conference at its session of 1846, and continued in effective relation thereto till the close of his life. During his ministry he was assigned to many important fields of labor, spending four years in the presiding eldership. For the last sixteen years of his life he was Secretary of his Conference, and, in 1868, represented it in the General Conference.

Dr. Pattison was a man of commanding presence, and of good abilities; of sincere and earnest piety; a faithful and useful minister.

HON. ISRAEL S. DIEHL, born in Adams Co., in 1826; died in Arendsville, in the same Co., January 4, 1875, *Ætat.* 49.

He made his way through College under great difficulties, graduating in 1851; two years later he went to California, where, while prosecuting his labors as temperance lecturer, he met with an accident which lamed him for life; at one time he was United States Consul to Java; at another, Commissioner to Asia Minor; during his occupancy of these positions, and afterwards, he traveled extensively through the East. The last ten years of his life were devoted to lecturing, mainly on Bible Lands, for which travel and observation peculiarly fitted him. For two years he was in failing health, and passed away at last in great peace.

JOHN R. PARKISON died in Reisterstown, Md., September 3, 1874.

He graduated at the Commencement of that year, *primus inter pares*. The sudden cutting off of one so talented and full of promise can find alleviation of its sadness only when regarded as of His permission who "doeth all things well."

THOMAS JEFFERSON THOMPSON, D. D., for many years a faithful and efficient member of the Board of Trustees, died in Wilmington, Del., November 29, 1874, *Ætat.* 71.

He was born in Dorchester Co., Md., March 13, 1803; admitted to the Philadelphia Conference April, 1826; spent 22 years in circuits and stations; 25 years in the office of presiding elder, and 2 years as agent of Wesleyan Female College, Wilmington, Del.—a total period of nearly 49 years of ministerial service. He was six times—namely, in 1844, '52, '56, '60, '68 and '72—a delegate to the General Conference. About the year 1860, the degree of D. D. was conferred on him by Wesleyan University. He was able in the pulpit; wise in counsel; judicious in administration; honored and useful in his life, and peaceful in his death. Though not an Alumnus of the College, his valuable service to it, through so many years, entitles him to a record among our own departed.
